Weight Training Classes: I have included Work-Outs #1-#10. These are programmed by Vinny Pelillo to assist in continuing your current level of fitness. They are challenging. Almost every lift/exercise we have done in class this year. If you cannot remember, most examples are easily looked up online and you can always modify your workouts to suit your needs. Several of you are

already working out on your own and have your own programs. This is great. Your requirement is to perform 300 minutes of any activity of your choosing. Stay Healthy.
