Psychology Textbook reinterpretation exercise Ch 14 Section 4 pg. 391-397

Directions: complete the following parts based on the section that is given.

1. Part 1

- a. Select a total of three important individuals, groups, fields or theories that you would regard as **psychologically** significant. Use either of the following criteria to justify each of your sections.
 - i. **Describe how each of your three selections have affected psychology and how it has made an impact on methods of research and psychological studies**

2. Part 2

- a. React to the reading by recording:
 - i. **1-2 questions you have about the material that is covered in the reading. Make sure your questions are though provoking and can be debatable.**
 - ii. **Reactions you have to the particular studies or methods (select at least 2)**
 - iii. **Two particular phrases or sentences which you want to remember- write down the phrase and explain why you selected it.**

3. Part 3

- a. Describe your feelings to the driving question as you read. How does this section further your understanding of Personality. Make sure your response is at least one paragraph long (5-6 sentences) and it tells me why?
 - i. **Do you think that unconditional positive regard is important for healthy personality development?**
