

Medical Terminology (The Nervous System) Week 3:

Dear Students,

I hope you are all doing well, and that you and your family are safe and healthy. For **Week 3**, we will be learning about the **Nervous System**, which corresponds with **Chapter 15** in the textbook. I have instructions for both textbook, and digital, options below. The lessons and weekly exercises (below) should take you around 2.5 hours per week (including reading, learning the material, answering HW questions, etc.). Please carefully read the directions for submitting your HW (at the bottom). Thank you.

Mr. Foster

Week 3 (Nervous System):

	Textbook Version:	Online Version:
Content & Concepts:	Read: P. 484-461 (Ch.15) <ul style="list-style-type: none">Nervous System Anatomy & PhysiologyNeurons and Glial CellsCentral Nervous System (The Brain & Spinal Cord)Peripheral Nervous SystemSense OrgansDiagnostic Tests & Procedures	Read: Slides 1-72 https://slideplayer.com/slide/16417676/ <ul style="list-style-type: none">Same concepts 
Exercises (HW):	Worksheets: Complete the attached worksheets (12B, 12E, 12F, and 12G)	Worksheets: <ul style="list-style-type: none">Same worksheets 

- All exercises (HW) should be done on **notebook** paper, if you are unable to print the worksheets out.
- To **submit** your weekly assignments, you should:
 - Take a (clear) photo** of your Paper (including your name, date, period, and all sides of the paper (if applicable)). Double-check to make sure the image is clear and legible.
 - Email your work to:** tfoster@tusd.net
