

Wednesday March 25, 2020

Hello Spanish 2 students & families, I hope & trust that everyone is well at this unusual time. During this, my first attempt to reach all of you, I want to establish the following:

1. I am asking that everyone contact me via email: **knordstrom@tusd.net**. In the subject line, write simply **Spanish 2**. Make contact w/at least 1 other person in your Spanish 2 class & confirm that he/she is receiving my email via Aeries & repeat my instructions to one another.
2. Look over your **3rd Q grades** in **Aeries** & include any questions you have in the aforementioned email. Let me know whether you are receiving my emails via Aeries or that someone else in your Spanish 2 class is keeping you in-the-loop.
3. All at-home work is to be completed on **regular size binder paper**. See below for suggested assignments.

For now, please complete the following:

- 1) Open your **textbook to page 202** & read the **Nota Gramatical in green** in the middle of the page.
- 2) In your mind & in your Spanish notebook, you want to group the **past participles according to -ar, -er/ir & irregulars**. Scroll this this lesson & be sure to listen to the short audio selections:
<https://www.spanishlearninglab.com/the-past-participle-in-spanish/>
- 3) Start on #3 & progress through all the subsequent exercises. I really like this site & hope it works for you on your phone or computer:
<https://www.languagesonline.org.uk/Spanish/Perfecttense/index.htm>)
- 4) Access **studyspanish.com, Grammar, Unit 9, Lesson 100**. Read through this lesson. Past participles are easy & useful. They work as both verbs & adjectives, depending on the situation. Take the **free Basic Quiz** until you score 100% & **send your results to my email**:
<https://studyspanish.com/grammar/lessons/pastpart>
- 5) **Start a daily journal in Spanish**. Strive for 3 on each side of your binder paper. Be neat, double space & use the date as your title for each entry. Tell me how you are, what you are eating/watching/working on, etc. Each day write 5+ sentences in Spanish, using a combination of

present & past tense. What are you doing to keep occupied & safe during **el**

coronavirus?
