Period: _____

Assignment Week #: Week 1

Compositional History of the Atmosphere Quiz and Week 1 Reflection

Directions: Create a diagram (chart, Venn diagram, graphs, etc.) **comparing** the **Earth's first atmosphere** and **Earth's current atmosphere**. Describe your diagram.

Please answer the following questions about this week:

- 1) How long did you spend working only on Physics this week? Be honest.
- 2) What is something new you learned in Physics class this week?
- 3) Was there anything difficult about it? Explain.
- 4) How is Physics class this week related to something outside of Physics class? Another class or an experience from your life?
- 5) What is a question you have based on Physics class this week? Something you are curious about or wonder about, not something you were supposed to learn/do but didn't.
- 6) How are you doing this week?
