Week 2 Agenda: 4/27-5/1

Here is the agenda for your distance learning for our class during the school closure package during next week. Unfortunately, internet is an issue for me, so we will not have any video conferences, please continue to complete your packet, deliver it to the school by the due date and I'll pick your packet up and grade them upon completion. Your grades will be based on completion of the assignment packets.

1. Reading Notes: Please continue to read your textbook Chapter 12-1 through 12-5 and take Reading Notes. Follow the agenda below. Assignments assigned are due on the following Monday.
2. Follow up your reading with the worksheets.
3. **Watch Youtube videos on the topic that you are working on and take notes [5 questions, 10 notes, and summary]. This is a supplementary assignment and optinal. If you have access to internet, I highly recommend that you do these assignments.
4. Please email if you should have any questions about the assignments during my office hours. I apologize in advance as my internet isn't working at times.
5. Staple or scan these assignments [send them to me via email] together and give the packet to the office for me to pick them up.
6. Office Hour: Monday-Friday 9:00 – 12:00 am
7. Due date: May 8th. Please complete the assignments for the given week and not wait until it's due.
