

End of Course Reflection Survey:

1. Name (First and Last)
2. Which class period are you in?
3. What are 5 things you learned from this course?
4. What is at least one new skill (Examples: organizational skills, note taking style, calculations, etc.) that you learned through out this course?
5. What was the most interesting topic that we learned about in this class? Why did this interest you?
6. What was your least favorite topic or topic that interested you the least from this course? Why did you dislike it? What could be done to improve that portion of the class?
7. What were some activities that you felt were really helpful in you understanding the content of the class? (I want to see which activities I should keep)
8. What were some activities that you did not feel were useful or confusing? What could have been changed to make this better?
9. Is there anything you feel you could have done differently to be more successful in this class?
10. What advice would you give to an incoming freshmen to help them be successful in this class?
